

Wet Warming® Premium Heating Lubricant™

Turn up the heat! Wet Warming® Premium Heating Lubricant™ gently heats on contact and warms with motion ... blow on it, and it gets warmer. Lick it and feel the heat between your sheets! Wet Warming is long lasting, water soluble, harmless if ingested, and washes away easily with warm water. Made with ethically-sourced, palm glycerin and moisturizing Vitamin E, Wet Warming is recommended for use with all types of toys and for warming massage as well.

Features

- ✓ Water soluble
- ✓ Gentle heating sensation
- ✓ Not recommended for those with sensitive skin

Ingredients: Glycerin, Tocopheryl Acetate (Vitamin E Acetate).

Usage and tips:

Warming lubricants like Wet Warming are a good choice for those seeking a little adventure. Use liberally during foreplay to get the juices flowing. Apply a drop under the head of the penis, on the nipples, or along the outer lips of the vagina. A warm breath over the area of application tends to bring out the slight warming sensation. Note: Wet Warming is not recommended for those with sensitive skin.

Sizes:

1oz 20606 3oz 20601
5oz 20602
